M25

snom

M25

Key Features
· TFT color display
· Up to 75 hours standby and 7 hours talktime
· Configurable signal LED
· Intuitive user interface
· 3.5 mm headset jack

Designed for professional business use, the M25 DECT handset is a hard-working, high quality device that represents an excellent price-performance ratio.

Reliable, compact and comfortable to use, the handset relies on easy-to-change and recharge AAA standard batteries providing up to 75 hours on standby and up to 7 hours talk-time.

For added ease of use, the new snom cutting-edge user interface is streamlined for speedy and intuitive navigation.

The handset can be deployed in both snom DECT solutions with easy configuration on the M700 multicell solution with seamless handover and the M300 single cell base station for flexibility and scalability.

SNOM
