

# XPS 10 feature overview

## Difference in the details

The XPS 10 is a blend of engineering and art, designed to enhance your productivity from the outside- in. The optional keyboard dock provides a stable structure—simply put, you can have stability to work from the confines of your lap, couch or commute. The form provides an awesome IM and video chat communication. Premium ARM based architecture helps battery power for easy, constant portability. Combine all this with a vibrant 10.1” HD capacitive touchscreen, edge-to-edge hardened glass for panel durability, and you have a balance of true form and function.

## Maximize tablet productivity

The XPS™ 10 makes productivity on a tablet a reality. Power through emails with the optional keyboard dock that extends battery life and productivity. Optimized for collaboration with an HD webcam, dual array mics and enhanced speakers in the keyboard dock. Share and sync files and documents in the cloud with SkyDrive and PocketCloud. And with the Windows RT you can multi-task with split screen, side by side apps. Now you can revise a document while on video chat, or transcribe info from a website to an email, all at the same time. Transcend the old single app tablet experience.

# XPS 10 feature overview

## The “keys” to success

It's more than just a keyboard. The Clamshell design offers different screen viewing angles and protects the screen on the go. The 92% full size chiclet keyboard comes with dedicated Windows soft-keys and gesture enabled touchpad to handle the details. Dock stereo speakers work together with the tablet speakers for crystal clear VoIP and video conferencing.

USB and mini-HDMI Ports connect multiple peripherals, including mice and external storage and displays. A keyboard that's there when you need it and gone when you don't; the quick-lock hinge system provides an easy release for a full tablet experience.

## Finally, a tablet that works...for work

Handle your business with Windows RT: Microsoft® Office Home and Student 2013 RT come pre-loaded and locked for on-the-go productivity. And keep it safe with built in out-of-the-box security-fTPM and BitLocker encryption technology. Business-ready ecosystem with pre-installed device drivers. IT friendly with cloud-based mobile device management capabilities with InTune or through Exchange Active Sync.

An array of support and business level service comes through on Dell ProSupport, and Accident Protection.

# XPS 10 specifications

# Important information

**Boot times:** Based on internal testing by Dell Labs in August 2012. Actual performance will vary with configuration, usage and manufacturing variability.

**Hard Drives:** GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.

**Graphics and shared memory:** GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.

**Skype:** Skype service subject to third-party service subscription terms and conditions.

**Tablet weight:** Weights vary depending on configuration and manufacturing variability.

**Dell ProSupport™:** Availability and terms of Dell Services vary by region. For more information, visit [www.dell.com/servicesdescriptions](http://www.dell.com/servicesdescriptions).

**Accidental Damage:** Service excludes theft, loss, and damage due to fire, flood or other acts of nature, or intentional damage. Customer may be required to return unit to Dell. For complete details, visit [www.dell.com/servicecontracts](http://www.dell.com/servicecontracts).

**Return for Repair after Remote Diagnosis:** Remote Diagnosis is determination by online/phone technician of cause of issue; may involve customer access to inside of system and multiple or extended sessions. If issue is covered by Limited Hardware and not resolved remotely, this service offers a 10-14 day mail-in repair option following completion of Remote Diagnosis

**Rapid Return for Repair after Remote Diagnosis:** Remote Diagnosis is determination by online/phone technician of cause of issue and multiple or extended sessions. If issue is covered by Limited Hardware Warranty [www.dell.com/warranty](http://www.dell.com/warranty) and not resolved remotely, shipping instructions will be provided. Next Business Day shipping not available in all areas, which may delay repair and return times. Other conditions apply. For complete details about Rapid Return service, visit [www.dell.com/servicecontracts](http://www.dell.com/servicecontracts)
